Environments for Living and Learning*

Behavioral Health Wellness Environments for Living and Learning (BH WELL) works to promote behavioral health and wellness among individuals facing behavioral health challenges.

## WHO WE ARE

We are experts in behavioral health integration and change. We serve as a resource for evidence-based behavioral health practice, programs, and education.

At the heart of our research and evidence-based practice is the desire to promote wellness, not merely mitigate disorders. Visit our website to learn more about our research, explore our resources, find out about upcoming events, and read our blogs. While you are there, check out our comic book series!
