About BH WELL

The University of Kentucky College of Nursing's Behavioral Health Wellness Environments for Living and Learning (BH WELL) research team exists to promote behavioral health and wellness among individuals facing behavioral health challenges. We live DIRECT by prioritizing Diversity, Innovation, Respect, Compassion, and Teamwork.

Research

Among healthcare professionals, compassion satisfaction is a sense of gratification that comes from providing care that makes their patients feel better. However, compassion fatigue is often a result of being so involved in caring for others that one feels burned out or starts to take on too much responsibility for their patients' suffering. This type of fatigue has a negative effect on a healthcare professional's ability to care for their patients or themselves. The main character, Hope, is a member of *The Dimensions*, a superhero group who make mental health and well-being a priority. However, Hope is experiencing worsening distress from the demands of caring for her sick patients and taking care of a newborn baby after returning to work from maternity leave. This places her at greater risk for compassion fatigue. *The Dimensions*, along with her work colleagues, support her decision to slow down in time to bring work and quality of life back into balance.

Okoli, C. T., Seng, S., Otachi, J. K., Higgins, J. T., Lawrence, J., Lykins, A., & Bryant, E. (2020). A cross-sectional examination of factors associated with compassion satisfaction and compassion fatigue across healthcare workers in an academic medical centre. *International Journal of Mental Health Nursing*, 29(3), 476-487.

AGITATED BY ANGST: SELF-CARE OVERCOMES!

Storyline

Agitated By Angst: Self-Care Overcomes features the story of school teacher and lead singer for *The Dimensions*, Hope Ripple, aka the Healer. She and her bandmates are also a secret group of superheroes. When we join Hope's story, she has recently given birth and is returning back to work. Like so many professionals working in healthcare settings, Hope is convinced that she can separate her compassion and empathy when she leaves the children's hospital after teaching all day. However, as a new mom coming back to work, her empathy is heightened for the children battling serious illnesses from their hospital beds. This empathy grows beyond compassion and she experiences a panic attack which is a sudden feeling of disabling anxiety. With the help of her work colleagues, and *The Dimensions*, Hope is able to pause to take care of herself. Only then is she ready to resume taking care of her patients and her family. And maybe, just maybe, the superhero children she works with will help her heal.

HOPE AND ERIC ARE AT HOME UNPACKING
GIFTS FROM A RECENT BABY SHOWER...

How sweet of everyone
to shower our baby with
all these gifts. Can't
wait to meet this
little one!

A proper footballer* for sure!
And are we set on the name?
B...

SHHHH!
I thought we agreed to
keep it a secret until the
baby is born.

Agreed. Exactly who would hear?

HaHaHaHa!

Hope, you are worn out. Are you
sure you don't want to take
the day off?

The kids need me... Oh! As a matter of fact, they need me right now!

AFTER MATERNITY LEAVE, HOPE RETURNS BACK TO HER JOB AS A TEACHER AT THE CHILDREN'S HOSPITAL...

When caring for others who are suffering, we can sometimes experience emotional fatigue which is when our "emotional well" begins to deplete.

A panic attack is a sudden feeling of intense anxiety that can cause physical symptoms such as a racing heart, fast breathing, and sweating.

AFTER HOPE BEGINS TO CATCH HER BREATH...

THE CHILDREN FROM THE HOSPITAL SUMMON THEIR INNER SUPERPOWERS TO HELP HOPE...

AS THE MINI-DIMENSIONS
STRUGGLE TO USE THEIR POWERS...

THE DIMENSIONS ARRIVE TO HELP THE
MINI-DIMENSIONS WITH THEIR SUPERPOWERS...

Ah, I remember
when I got my
superpowers...

Let's get
training!

Hi, boy!

Hi, Captain Calm!

Wow!

Yes! Linguine,
not rotini!

... And Hope realized that taking
care of herself is critical to taking
care of the next generation.

THE END!
